Atef Mahmoud Elsaeed

Senior Flutter Developer | FinTech, Mobile Architecture & Performance

Cairo, Egypt · +20 102 364 2940 · atefelsaid3@gmail.com

linkedin.com/in/atefelsaeed · github.com/atefelsaeed · medium.com/@atefelsaid3

Summary

Senior Flutter Developer with 5+ years building and maintaining production mobile apps across fintech, recruitment, government and consumer domains, including apps with 500K+ downloads. Strong expertise in Flutter, Dart, Clean Architecture, Bloc and Riverpod, with a focus on performance, reliability and maintainable architecture.

Track record of delivering business-critical features, integrating financial APIs and owning production releases. Also a co-founder and independent product builder who has taken mobile products from architecture to store launch, including a marketplace that reached 2,500+ users within 5 months.

Experience

Senior Flutter Developer — Vision Dimensions

Part-time · May 2026 – Present

- Building Atlas, a travel and booking app (in development) for discovering destinations and making reservations
- Building the Flutter chat experience for the app's AI travel assistant, which recommends destinations, places and personalized trip plans based on each user's needs

Senior Flutter Developer — Recapet

Full-time · Dec 2024 – Apr 2026 (company closed)

- Led development and maintenance of QSalary, an earned wage access and financial wellness app (40K+ downloads)
- Built business-critical features: financial flows, authentication and deep linking
- Integrated financial APIs and improved app performance and stability
- Reduced production crashes by tracking and fixing issues through Firebase Crashlytics

- Refactored core modules to improve scalability and maintainability

Senior Mobile Developer — Sulfah (Fintech)

Full-time · Dec 2023 – Nov 2024

- Contributed to scaling the lending app to 500K+ downloads
- Implemented iOS Live Activities and deep linking
- Implemented secure authentication and sensitive user-data handling
- Improved onboarding, performance and overall stability

Software Team Lead — GatePlus

Part-time · Mar 2023 – Dec 2024

- Built and led a team of 10+ engineers delivering a recruitment system used by multiple companies
- Owned architecture decisions, sprint planning, code reviews and QA processes

Mobile Developer — I-Valley

Full-time · Dec 2022 – Nov 2023

- Built production apps across multiple domains using Clean Architecture

Flutter Developer — Takamol

Part-time · Feb 2022 – Jul 2023

- Developed government solutions for the Saudi Ministry of Transport, including tablet-optimized apps

Flutter Developer — SD Solutions

Full-time · Oct 2021 – Nov 2022

- Developed and maintained multiple mobile applications

Ventures

Co-Founder & Tech Team Lead — Adrenaline Platform

Jan 2025 – Present

- Co-founded the company and lead its cross-functional tech team (Mobile, Backend, DevOps)

- Delivered the mobile apps, web platform and admin dashboard
- Run sprint planning, task distribution and the full release lifecycle
- Improved deployment workflows and system stability

Co-Founder & Sole Mobile Developer — Dikirnis On

Apr 2026 – Present

- Co-founded a local super-app for Dikirnis, Egypt, connecting users with 10+ sectors including healthcare bookings, jobs, shopping, home services, education, dining and local news, plus a dedicated merchant app (Dikirnis On Pro)
- Grew to 2,500+ users and 500+ registered businesses within 5 months of the May 2026 launch
- Built a data-driven mobile UI for infinitely nested categories: new sectors and sub-categories added or reordered from the admin dashboard appear in the app instantly, with no app release
- Sole developer of both mobile apps, end-to-end: architecture, development and App Store / Google Play releases (Flutter, Bloc, go_router, integrated with a .NET REST API)
- Merchant app covers store management, product and offer publishing, orders, performance analytics, QR store codes, and job postings with applicant messaging
- Customer app · Merchant app

Key Projects

Prime Source (Al-Masdar Al-Awal) — Hajj operations app · Google Play · App Store

- Multi-role app for 5 user types (pilgrim, supervisor, sheikh, doctor, barber) covering pilgrim housing, transport and on-site organization, plus Quran, Athkar and Duas
- Cut app size by 65% (250 MB → 85 MB) by removing duplicate fonts and images, dead code and unused dependencies
- Re-architected the whole app and shipped a redesign with new features and performance improvements

Dhahirah Governorate Portal — Government app, Oman · Freelance · Google Play · App Store

- Delivered the official citizen app: news, development projects, events, open data and e-government services

Miqat — Islamic companion app · Personal project, solo developer · Google Play · App Store

- All-in-one Islamic app: prayer times with Adhan notifications, color-coded Tajweed Mushaf, Quran audio by multiple reciters, memorization with spaced review, Hadith and Athkar
- Free and ad-free; actively maintained

Delta Oil — Field operations app

- Grew downloads from 1K to 5K+ while improving stability and feature quality
